Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications H.M. Haav The Eighth International Baltic Conference on Databases and Information Systems took place on June 2-5 2008 in Tallinn, Estonia. This conference is continuing a series of successful bi-annual Baltic conferences on databases and information systems (IS). The aim is to provide a wide international forum for academics and practitioners in the field of databases and modern information systems for exchanging their achievements in this area. The original research results presented in Databases and Information Systems V mostly belong to novel fields of IS and database research such as database technology and the semantic web, ontology-based IS, IS and AI technologies and IS integration. The contribution of Dr. Jari Palomaki showed how different ontological commitments affect the way we are modeling the world when creating an information system. As semantic technologies have been gaining more attention recently, a special session on semantic interoperability of IS was organized. The invited talks from each Baltic State gave a good insight how semantic interoperability initiatives are developing in each of the Baltic States and how they relate to the European semantic interoperability framework.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

-Biomedicine
-Oncology
-Artificial intelligence
-Databases and information systems
-Maritime engineering
-Nanotechnology
-Geoengineering
-All aspects of physics
-E-governance
-E-commerce
-The knowledge economy
-Urban studies
-Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

From reader reviews:

Phyllis Callahan:

The book Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications give you a sense of feeling enjoy for your spare time. You can use to make your capable much more increase. Book can to be your best friend when you getting pressure or having big problem with your subject. If you can make examining a book Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications for being your habit, you can get much more advantages, like add your own capable, increase your knowledge about several or all subjects. You may know everything if you like wide open and read a reserve Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications. Kinds of book are a lot of. It means that, science e-book or encyclopedia or other people. So , how do you think about this book?

George Sanders:

Information is provisions for anyone to get better life, information today can get by anyone from everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider any time those information which is from the former life are hard to be find than now is taking seriously which one is suitable to believe or which one the actual resource are convinced. If you receive the unstable resource then you obtain it as your main information we will see huge disadvantage for you. All those possibilities will not happen inside you if you take Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications as the daily resource information.

Laura Burke:

This book untitled Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications to be one of several books that best seller in this year, this is because when you read this e-book you can get a lot of benefit on it. You will easily to buy this particular book in the book retail store or you can order it by using online. The publisher of the book sells the e-book too. It makes you more readily to read this book, since you can read this book in your Mobile phone. So there is no reason for your requirements to past this e-book from your list.

Henry Slaughter:

A lot of people always spent their free time to vacation or perhaps go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent that they free time just watching TV, or even playing

video games all day long. In order to try to find a new activity this is look different you can read some sort of book. It is really fun for yourself. If you enjoy the book that you read you can spent all day every day to reading a book. The book Databases and Information Systems V: Selected Papers from the Eighth International Baltic Conference, DB&IS 2008 - Volume 187 Frontiers in Artificial Intelligence and Applications it doesn't matter what good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. In case you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore quickly to read this book from your smart phone. The price is not too expensive but this book provides high quality.
