Anything can happen in the dark...

Scientist Lacey Delaney has a hard rule: no dating men in the mining industry. And anyway, she'd rather focus on her work—designing a sophisticated piece of equipment for locating trapped miners. Then Lacey learns that Cole MacKinnon is a mining engineer. His job is hazardous—and so is getting involved with him beyond a few nights of wickedly hot fun. What Lacey *doesn't* know is that Cole is actually an undercover federal agent, a job that carries even more risk.

And the deeper they go, the more dangerous it will get....
