This book unveils the petrifying scenario of a certain president Monady Jamia, who was compelled to become a member of a certain satanic secret society, as a means of supplementing his capacity and magnifying his influence, as president of the republic. The presidential job requires exceptional bravery, outstanding mental stamina and stupendous ability. The tenure of the president is a mammoth responsibility; whereby, the destiny and welfare of the nation is entrusted to the president. All decisions must be taken in a judicious, sharp and timely manner; and must assiduously consider the breadth and depth of possible ramifications. A single fruitful decision can generate immense benefits for the entire nation; while a single ill-conceived decision can trigger horrific political, economic, social and other consequences. Therefore, the job of the president is a highly challenging responsibility. In return for these sacrifices, the president is rewarded with power and authority, esteem, self-fulfilment, financial recompense; and a multitude of other tangible and intangible benefits. Becoming a president is not a straightforward procedure that is determined solely by the avenue of the secret ballot, as it's the case during democratic presidential elections. As a matter of fact, some presidents become members of various secret and mischievous organisations; which would offer them backup through a variety of mysterious means. This additional mysterious backup is expected to offer the president protection from enemies; magnify the charisma, authority and influence of the president. Apart from becoming members of mysterious and mischievous secret organisations, the president also signs a host of secret deals with various economic and political organisations; such as, a deal that the president will promote the interest of a particular economic or political group; that he will never take certain adverse decisions towards certain groups; that he will maintain diplomatic relationships with certain countries; according to certain principles and rules; just to mention a few. Some presidents are even compelled to sign deals that are detrimental to the welfare of the nation, just for the sake of becoming or remaining the president of a given country. Therefore, the concept of democracy is a luxurious fairy tale, to be told to babies that are still enjoying mummy's delicious breast milk. During presidential elections, electorates are presented with a few candidates and urged to choose one of them. The real issue is that, those candidates selected by all participants of the democratic elections have accepted and signed secrets pacts; which would compel them to act in particular ways, or to avoid acting in particular ways; depending on the whims and interests of the lobby groups that compelled such deals upon presidential candidates. Therefore, vote casting is simply a formality designed to make the general public feel that they are the ones who have selected the president. That is truly not the case because the pre-selection of presidential candidates is conducted by certain groups of people and not the general public; and care is taken to ensure that the selected presidential candidates would defend their interests to the fullest degree possible. Therefore, which ever presidential candidate emerges victorious during the presidential elections, would always do as the lobby groups have decided. The deepest aspects of politics are conducted in utmost secrecy; and neither the media nor the general public are aware of the secret principles and rules of politics defined behind closed doors. Therefore, this book offers you an enlightening briefing on some of the atrocious procedures that transpire in the murky corridors of power. It also reveals how the mandate of heaven was compelled to intervene in one of such atrocious schemes, in order to rescue the masses from the abomination of a highly perilous president Monody Jamia.
