Gothic Europe 1200-1450 Derek Pearsall

This uniquely ambitious history offers an account of all aspects of cultural activity and production throughout the world of Latin Christendom 1200-1450. Beginning with a detailed description of the political and economic circumstances that allowed the 'Gothic Moment' to flourish, the body of the book is both a celebration of the Gothic cultural achievement - in cathedral-building, in manuscript illumination, in chivalric love-romance, in stained glass and in many other arts - and an investigation of its social origins and systems of production.
