Performance Measurement and Management Control: Measuring and Rewarding Performance (Studies in Managerial and Financial Accounting) M.J. Epstein, J-F. Manzoni

In 2001, we gathered a group of researchers in Nice, France to focus discussion on performance measurement and management control. Following the success of that conference, we held subsequent conferences in 2003, 2005, and 2007. This volume contains some of the exemplary papers that were presented at the most recent conference. The conference has grown in number of participants, quality of presentations, and reputation and this year attracted leading researchers in the field from North America, South America, Europe, Asia, Australia, and Africa. Though the conference has been generally focused on performance measurement and management control and has included presentations on many facets of the topic, each year we have also focused on a particular theme of current interest. This year's theme was directed at measuring and rewarding performance. We are hopeful that this book will continue the search for additional understanding and development in performance measurement and management control, and provide guidance for both academic researchers and managers as they work toward improving organizations.
