How to Discover Best-Selling eBook Ideas – The Bulletproof Strategy

You're wasting time listening to the standard advice about Kindle publishing. You can't write about *any* topic and expect it will become a best selling eBook. The truth is the Amazon marketplace is full of fickle readers. Most will only read a *specific type* of nonfiction book. If you're **not** writing about these topics then no one is going to buy your book. It's that simple!

As an expert on niche research, I know what it takes to find proven, profitable markets. I use four free websites to discover *where* people are spending money. In my book, I show you these sites. Plus I teach you how to find the right niche that matches your background and personal interests.

The key to making a killing on Kindle is to follow a publisher's model. You don't succeed with a single title. Your best best is to locate a hidden niche full of hungry buyers who will buy *everything* you publish.

My guide details an additional four websites for exploring any market topic. You won't have to *guess* what people will buy. Instead you'll do a special type of research to decipher the language they use and locate the problems they encounter on a daily basis. In addition, you'll discover the *right way* to get hundreds of profitable nonfiction book ideas
