**Machine Tool And Manufacturing Technology (Machine Tools)** Steve Krar, Mario Rapisarda, Albert F. Check

The book is designed to introduce students in manufacturing in a logical manner. The basic machine tool operations are covered (same as the machine tool courses presently taught in schools). A complete section on CNC programming and operation for teaching-size and standard machines presented in easy-to-understand language. Twelve new manufacturing technologies, directly related to the machine trade, are covered in a brief overview of each, designed to show students the many exciting career opportunities available in manufacturing.
