At the Center of the Storm: The CIA During America's Time of Crisis George Tenet, Bill Harlow

At the Center of the Storm is a revealing look at the inner workings of the most important intelligence organization in the world during the most challenging times in recent history. Based on his unparalleled access to both the highest echelons of government and raw intelligence from the field, former CIA Director George Tenet's candid and gripping memoir disentangles the interlocking events that led to 9/11 and offers eye-opening new information on the deliberations and strategies that culminated in the U.S. invasion of Iraq. Through it all, Tenet paints an unflinching self-portrait of a man caught between the warring forces of the administration's decision-making process and his own conscience.
