Human Antiquity: An Introduction to Physical Anthropology and Archaeology

Kenneth Feder, Michael Park

Human Antiquity: An Introduction to Physical Anthropology and Archaeology Kenneth Feder, Michael Park

Where did we come from? To answer this question, anthropologists reconstruct the human past and study the human present from both biological and cultural perspectives. *Human Antiquity* offers an absorbing, straightforward explanation of human origins and evolution by thoroughly integrating physical anthropology and archaeology. Co-authors Kenneth Feder and Michael Park combine the ideas, methods, and knowledge from both biological anthropology and archaeology into a unified effort: Feder is an archeologist who conducts surveys, excavations, and analyses to understand the native inhabitants of New England; Park is a biological anthropologist interested in the application of evolutionary theory to the biological history of our species.
