David Friedrich Strauss

The Life of Jesus, Critically Examined (Cambridge Library Collection - Religion) David Friedrich Strauss

The German theologian David Friedrich Strauss (1808-1874) published his highly controversial *The Life of Jesus* in three volumes between 1835 and 1836. This translation, by George Eliot, is based on the fourth German edition (1840). In this work Strauss applied strict historical method to the New Testament gospel narratives and caused scandal across the Protestant world by concluding that all miraculous elements were mythical and ahistorical. Volume 3 applies modern historical criticism to 'de-mythologize' the narratives of the transfiguration, Jesus' final journey into Jerusalem, the passion, the death, and the resurrection; and investigates the historicity of Jesus' enemies. The volume concludes with an essay entitled 'The Dogmatic Import of the Life of Jesus'. This is a key text of nineteenth-century theology that pioneered the application of historical and scientific methods to the study of religious texts. It is essential reading for any student of the New Testament.
