**Chemistry: An Atoms-Focused Approach** Thomas R. Gilbert, Rein V. Kirss, Natalie Foster

This is a custom, loose leaf edition for Clemson University. This book has the exact same material and information as the hardbound text *Chemistry: An Atoms-Focused Approach*; however, it includes supplemental pages for Clemson University. This custom text has the exact same ISBN printed on the copyright information page inside the book as the hardbound copy (ISBN: 978-0-393-91234-0). The authors, who have more than two decades of combined experience teaching an atoms-first course, have gone beyond reorganizing the topics. They emphasize the particulate nature of matter throughout the book in the text, art, and problems, while placing the chemistry in a biological, environmental, or geological context. The authors use a consistent problem-solving model and provide students with ample opportunities to practice.
