## **Life and Speeches of Daniel O'Connell, M. P, Vol. 2 (Classic Reprint)** O'Connell O'Connell

The ten years which are embraced in the present volume of this Sketch of the Life and Collection of the Speeches of Daniel O'Connell (to give the work its proper, though very awkward title) were among the most important of his entire career, in point of permanent usefulness to Ireland. This assertion may appear at first sight strange; considering that the period in question included so small a portion of the workings of that great engine which he devised and put together, and by which he accomplished the great victory of Catholic Emancipation. And in all probability the reasons advanced in support of the assertion may not seem as convincing, nor by any means as palatable, to some of those who shall chance to read this imperfect record of Mr. O'Connell's career, as I have little doubt they will be found when submitted to the majority of Catholic Ireland.
